

Executive summary

HAIC conducts a monthly survey of its member-companies regarding the premium production per line of business. The purpose is to estimate the rate of change per month and cumulatively for the latest recorded period (Q1, semester, ...) in relation to the corresponding period of the previous year.

All insurance enterprises – members, which are established in Greece, participated, while the ones operating under freedom of service (F.O.S.) did not.

The current study aggregates the monthly premium of insurance enterprises for Q1 2016 and compares it against the corresponding value for the same enterprises of Q1 2015.

56 insurance enterprises responded, which accumulated 97.1% of premium (including policy fee) according to the insurance market's full data for 2015. From the above, 22 were active in Life insurance (99.9% market share) and 45 were active in the Non-life insurance (94.5% market share).

According to the law, premium of IV.2."Health insurance" (as previously recorded in Life insurance) is partitioned in the Non-life classes of 1."Accidents" and 2."Sickness".
